

Agile Solutions. Compliant Interactions.

IMPROVED COMPLIANCE | LOWER TOTAL COST OF OWNERSHIP | EXCELLENT CUSTOMER EXPERIENCE

AHM is the leading global provider of software and service solutions to manage compliant HCP interactions for the Life Sciences industry.

20 years serving the Life Sciences industry  
4 regional offices around the world  
500+ global associates

INDUSTRY CHALLENGE

The Life Sciences industry is currently facing unprecedented compliance challenges and held accountable to manage and report on all transfer of value interactions with healthcare professionals (HCP) and healthcare organizations (HCO) across markets around the world.

THE AHM SOLUTION

In response to this market demand, AHM has developed a robust portfolio of software and service solutions to manage compliant HCP transfer of value interactions. The associated data aligns with the following key objectives: address global compliance needs with a solution that offers a flexible software and services platform, while delivering a lower total cost of ownership.

AHM's CentrisDirect™ and CentrisServices™ solutions provide complete HCP interaction workflow and support to enable compliant choices and outcomes for all stakeholders associated with the engagement of an HCP. The solution interaction business processes are configured based on the clients' specific needs for each defined interaction type, market and user.

AHM's solutions represent the true convergence of technology, workflow and support services – providing a flexible model to provide the best user experience with customers and across the enterprise.

Software  
Single platform to manage all HCO/HCP interactions.  
AHM Centris Direct

Services  
Logistics, compliance and payment services supporting HCP interactions.  
AHM Centris Services
